**Re: Peter Rutman**

To Whom It May Concern:

I have worked with Peter Rutman on several cases and accounts since I first met him in early 2014. He is the most diligent professional with whom I have ever worked. And yet his diligence is far surpassed by his ingenuity. Peter can solve a problem before most professionals know one even exists.

Upon first entering Peter's office I was struck by the varied learned treatises crammed into the bookshelves. From accounting to real estate to securities, Peter truly has a master's grasp on multiple subjects. Most professionals specialize in one subject; Peter "specializes" in most everything. Still, Peter is more than willing to engage in discussion with me and clients alike should any of us have different interpretations on a particular issue. Peter is a problem solver only interested in his clients' ultimate satisfaction.

Peter complements his professional knowledge with an impressive artistic resume. He is an accomplished musician who brings that artistic bent to what most would consider a black and white situation. Such perspective truly allows Peter to think "outside of the box" and provide unique solutions.

If Peter Rutman says he can help you and/or your client, I have every reason to believe he can and I would have no hesitation in recommending him for that endeavor. Please feel free to contact me directly should you have any other questions.

Sincerely,

HASKETT & ASSOCIATES
